

INTRODUCING

 **Healthi**

HEALTH RECORDS
ON THE GO

Healthi gives you **convenient, fast and secure** access to your family's health records.

The **Healthi** mobile app allows you to access summary health information, recent healthcare visits, health provider generated documents such as hospital discharge summaries and pathology reports, medications and personally entered information such as allergies and advance care documents.

Healthi FEATURES

Healthi is completely free for you and your family to use, and always will be.

It's available on both Android and Apple Devices.

In case of emergency, you're always able to access your health records.

Handle permissions so you can view records from the rest of your family.

It's a fast and easy solution to manage your family's health records on the go.

Up to date records to refer to, no matter when or where.

HOW HEALTHI WORKS

Connected to your MyGov Account

Healthi uses MyGov account details to access your My Health Record information. A user entered PIN secures the Healthi app, and your data is safely accessed from your device.

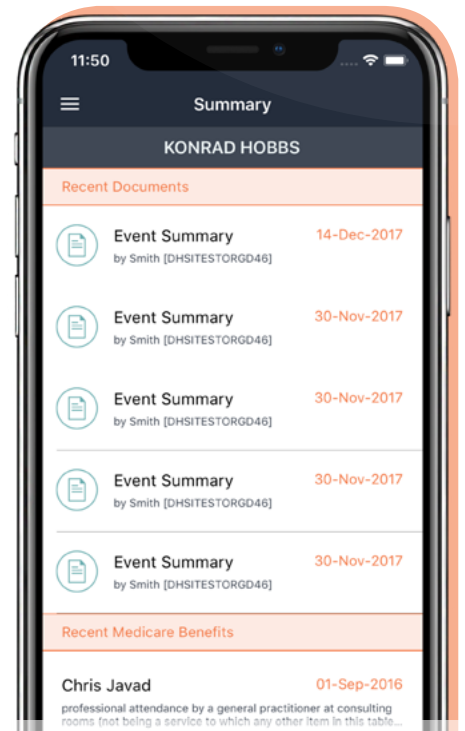

Information directly from your healthcare provider

Documents displayed can be sourced from GP's, Public and Private Hospitals, Allied Health Professionals and other health providers registered to upload to the My Health Record.

All of your health information in one place

The number and type of documents available to you will depend on what your healthcare providers have uploaded to your My Health Record, or what you have personally entered.
